twentieth

Saule - S -01

Larose Guyon

DESCRIPTION

Introducing Saule, a striking lighting fixture inspired by the graceful beauty of the willow tree. Each piece is meticulously handcrafted in our Verchères studio by our talented team, ensuring every detail captures the essence of nature. With cascading, hand-formed brass leaves hanging from elegant metal arches, Saule reflects light like the shimmer of willow foliage gently swaying in the breeze. At the heart of the fixture rests a slightly pink glass globe, like a delicate fruit suspended within the tree's branches, emits a soft, warm glow that enhances the organic beauty of the design. The entire structure, reminiscent of a mobile, moves ever so slightly with the air, creating an ethereal, living quality that draws attention and adds a serene ambiance to any space. Available in configurations with one, three, or five individual Saule fixtures, this design offers versatile options to suit various interior needs, from a single statement piece to a breathtaking multi-fixture installation. Saule is not just a light—it's a handcrafted piece of art, designed to bring the elegance and tranquility of the natural world into your home.

ADDITIONAL INFORMATION

32'' x 32'' x 46'' H

Finish: Aged brass

Lead time: 10-12 weeks

SHADE
8'' Hand blown glass ball

LAMPING
Dimmable integrated LED
