Welles Double Blown Glass Desk Lamp

Gabriel Scott

DESCRIPTION

Single gem-like glass forms are held by contrasting metallic prongs, reminiscent of custom crafted jewelry, these exquisite pieces are available in Smoked-Gray, Alabaster-White and California-Pink glass. The WELLES silhouette is created through an intricate double-blown glass process, during which colored glass is enclosed in a solid clear body and then expertly polished and shaped to its recognizable form.

All Gabriel Scott pieces are handmade in Canada.
