Aubergine Grey Luma Light

Daniele Albright

DESCRIPTION

Influenced by the Los Angeles based Light and Space art movement, Lumalights combine color saturation and illumination to produce atmospheric installations. Various opacities and transparencies of material, light and color are layered to create visual resonance. Compositions can range from subtle and fluid monochromatic gradients to strikingly vivid and vibrant interactions of pure color.

ADDITIONAL INFORMATION

CUSTOM MADE TO ORDER

MATERIALS

Hand-Formed Acrylic, Dimmable LED Light

DIMENSIONS

Custom Sizes and Configurations

Depth is always 5"

Shown: 60" H x 18" W x 5" D
