## Castle 12-04

Jason Miller

### DESCRIPTION

While the shape of these pieces occasionally resembles the turrets of a castle, the name actually comes from the game of chess. The rook can jump any distance, yet it is restricted to moving orthogonally. Likewise, the glass in Castle extends to different lengths but is always horizontal or vertical. Designed by Jason Miller for Roll & Hill.

### ADDITIONAL INFORMATION

#### MATERIALS

Machined Aluminum, Glass

#### FINISHES
