Lure Chandelier

Pelle

DESCRIPTION

Each blossom—a unique, delicate arrangement. At once open and closed, the flower's light and shadow lure one into its contemplative depths.

Lure transforms a flower's transient beauty into a lasting light. In this fixture, a cast paper flower is spotlighted by a suspended LED light source. Held by a slender brass arc, the light shines brightly on a blossom built of hand-sculpted petals, displaying texture, structure, and delicacy. The white flower reflects light, providing a source of soft illumination.

The Lure Chandelier uses cast paper flowers that are sculpted by hand in our studio. Each blossom's petals are individually shaped, and each Lure blossom is unique. Unlike wood-based paper, cotton paper is archival in quality, extremely durable, and has been known to last for more than a hundred years.
