## Swarm Chandelier - Limited Edition

Established & Sons

### DESCRIPTION

The Swarm chandelier is composed of 16,000 hand threaded black crystals which make up a complex pattern of forms in Zaha Hadid's trademark style of fluid, spatial dynamics. The effect is of a slow motion, controlled explosion where individual, organic forms with seemingly little relation are brought together as a monumental whole in the chandelier. A feat of manufacturing, the chandelier was designed using sophisticated digital modelling tools with each crystal being meticulously hand threaded.

### ADDITIONAL INFORMATION

#### MATERIALS

Black crystals

#### DIMENSIONS

8' 0" length x 5' 10" depth, 13' 2" ceiling drop

#### PRODUCTION

Limited edition of 8
