twentieth

Drift Bench - Limited Edition

Established & Sons

DESCRIPTION

The Drift Limited Edition bench is constructed from layered beech plywood that is then hand carved. The layered wood reveals the complex contours and curves that architect Amanda Levete is so well-known for. The coupling of hand-carved wood with a form created in architectural software produces an object that challenges preconceptions of how wood can work as a contemporary material.

ADDITIONAL INFORMATION

MATERIAL
Hand-constructed, layered European all-beech plywood

FINISH
Hand-carved and finished in dark wood stain

DIMENSIONS
9' 9" length x 2' 10" depth x 16.5" height, seat depth 16.5"
