twentieth

Kebab Lamp Series - Limited Edition

Established & Sons

DESCRIPTION

The Kebab Lamp Edition Series is an ongoing experiment by Clare Page and Harry Richardson of Committee. Each unique floor lamp is handmade by skewering?a selection of found objects, antiques and other miscellany no longer in use. Built as? a totem of improbably varied materials, the lamps are composed to contain stories and meanings. This concept behind the lamps was born of Committee's interest in the way people relate to and value objects and the lamps play with this sense of value as porcelain and plastic come together to form a unique sculptural composition with its own integrity.

ADDITIONAL INFORMATION
