twentieth

Iris Table - Limited Edition

Established & Sons

DESCRIPTION

Each table in the Iris Limited Edition series is constructed from a single geometric component, which is machined from? solid aluminium and repeated to form a tessellated ring. Color is integral to the design of the Iris series, with each of the variations its own specific color spectrum. The composition of colors, whether a gradated run or series of sharp tonal differences, has been handpicked by Edward Barber and Jay Osgerby to capture the beauty of the color chart in a three-dimensional form. Using circular forms means that the color patterns are continuous with no starting point and no end.

ADDITIONAL INFORMATION

MATERIALS
CNC machined solid aluminium sections, toughened glass

FINISH
Anodized in specific color spectrums

DIMENSIONS

Iris 500: 1' 8" diameter, 2' 0" height
Iris 600: 2' 0" diameter, 2' 3" height
Iris 1200: 3' 11" diameter, 1' 3" height
Iris 1300: 4' 3" diameter, 1' 4" height
Iris 1500: 4' 11" diameter, 1' 4" height

PRODUCTION
Limited edition of 12 each
