Polar Desk Lamp

DESCRIPTION

A study in the reflection of light and shadow, The Polar desk lamp utilises a unique magnetically attached arm to allow the disk to arc around the body to direct or shade light. A friction disc in combination with magnets molded into the ceramic body allows the arm to snap into place and to function.

Polar's white ceramic base is hand crafted using traditional slip casting and the surface is bisque fired and presented unglazed. The disk is available in White, Midnight Blue and Dusk Pink.

SPEC SHEET
