twentieth

Meltdown Pp Tube #2 Black Chair

Tom Price

DESCRIPTION

This second version of the PP Tube chair tests the strength of the material and process by greatly reducing the amount of tube used. Whereas the first version had many legs for support, this has just four and many fewer welded joints overall.

These are produced in a limited edition of 50 in white, and 50 in black. They form part of a series of chairs created using the same technique with different materials.

ADDITIONAL INFORMATION

EDITION
50

MATERIALS:
Polypropylene tube

DIMENSIONS:
29.5"x17.7"x17.7"
