Wall Pattern Tiles

Scott Daniel Design

DESCRIPTION

Wall Pattern Tiles by Scott Daniel Design. These tiles were made by layering two different sizes of wire mesh, then dipping each tile by hand to achieve a thick buildup of clay over a portion of the tile. This installation has five different types of tiles arranged to feel a bit like a random pattern. Customized sizes, patterns, finishes, and applications are welcome.

TEAR SHEET

ADDITIONAL INFORMATION

MATERIALS

Clay, Metal

DIMENSIONS

Components measure approximately 19" W x 19" H x 1.5" D each.

Dimension variations occur naturally, +/- 1"

FINISHES

Metallic Black

Additional finishes available upon request

PRICING

Price listed is estimated \$/sf, and may vary according to size, pattern, finish, & installation methodology.

*Please confirm pricing for specific installations.

**Variations occur naturally, no two pieces are identical.

PROCESS

Inspired by the concept of Alchemy – combining basic elements to create something of great value - Cmesh was developed through an experimental artistic process. Clay and metal, normally incompatible materials, were combined in numerous ways and tested extensively until the process was developed and refined.
