twentieth

Lopez Chandelier

Scott Daniel Design

DESCRIPTION

The Lopez Chandelier by Scott Daniel Design. This fixture was designed to fill the voluminous space. Referencing the mobile as a chandelier, ceramic diffusers of different shapes and sizes were carefully positioned to balance in space. As a group, they evoke a sense of movement as your eye follows the unique patterns of light emitting from the various shapes.

TEAR SHEET

ADDITIONAL INFORMATION

MATERIALS
Clay, Metal

DIMENSIONS
To be commissioned
Dimension variations occur naturally, +/- 1”

Brass light cluster with Bronze Patina or Polished Nickel
Shown in brass hardware with bronze patina

LIGHTING
40W Clear T10 (Bulbrite) bulbs included

PROCESS
Inspired by the concept of Alchemy – combining basic elements to create something of great value - Cmesh was developed through an experimental artistic process. Clay and metal, normally incompatible materials, were combined in numerous ways and tested extensively until the process was developed and refined.
