28 Cluster

Bocci

DESCRIPTION

28 SERIES

28 results from an innovative fabrication process that manipulates both the temperature and the direction of airflow into blown glass. The result is a slightly distorted sphere with an interior landscape of satellite shapes, including an opaque milk glass diffuser that houses either a low-voltage xenon or LED lamp.

28 CLUSTER

28 pendants are designed to cluster in hexagonal shapes, which nestle into one another to create patterns as dictated by the needs of the interior.
