28 Semi Rigid

Bocci

DESCRIPTION

28 SERIES

28 results from an innovative fabrication process that manipulates both the temperature and the direction of airflow into blown glass. The result is a slightly distorted sphere with an interior landscape of satellite shapes, including an opaque milk glass diffuser that houses either a low-voltage xenon or LED lamp.

SEMI RIGID

The 28 semi-rigid is a flexible suspension system that enables pendants to be nestled in close-knit groups or loosely composed in a wider field, allowing each piece to be perceived individually.
