

twentieth

Orbit 01

Lindsey Adelman

DESCRIPTION

Kepler's laws of planetary motion confirmed that the Earth and other planets move in elliptical orbits, and not in perfect circles. Inspired by this discovery, the chic Orbit candleholder invokes the shape of planetary trajectories with an elliptical bobèche perched on each of the three bases.

ADDITIONAL INFORMATION

Materials: Brass, leather

Finish: Oil-rubbed bronze, Brushed brass

Dimensions: H 2in/5cm x W 3in/8cm x D 3.5in/9cm
