A Part Of Me And A Part Of You Hanging Light Sculptures

Vincent Pocsik

DESCRIPTION

Vincent Pocsik's sculptural works are a study of human form abstracted down to the point of its most transformative power. Flesh twists, contracts, pushes against bones and skin and sinew, giving way to transformations of the self and the body that envelops it. Mixing fluid digital modeling processes, CNC milling, and then hand shaping and refining the wood forms, the resulting wood sculptures take on an elastic quality, embodying a fleshiness that is as simultaneously fluid and solid as the human body.

'A Part of You' (on right in lead photo) available in stock, includes matching canopy.
