twentieth

# Philodendron Leaf Lounge Chair

Christopher Kreiling

DESCRIPTION

The Philodendron Leaf Lounge Chair is a one-of-a-kind, beautifully hand-forged sculpture. The leaf shape lent itself perfectly to making a very comfortable lounge chair. The chair went through many bending phases to get it to the perfect seat back position so that one's head can rest while the arms are at rest as well. The Philodendron Leaf Lounge Chair has smooth lines and appears delicate, but is heavy enough that it takes two people to comfortably move it. The legs are individually turned solid brass.

ADDITIONAL INFORMATION
