twentieth

Ava Dining Table

Krasnogorov Studio

DESCRIPTION

The AvA dining table is made up of three identical elements that twist around each other in a repeat pattern. The inspiration for the legs is reminiscent of The Evolution Stool design, also conceived and engineered by Vlad Krasnogorov.

An elemental, primitive concept—a simple beginning for more complex contemporary ideas that evolve from it…a sculptural, organic shape where three elements intertwine and rise up as a new form emerges.

ADDITIONAL INFORMATION
