twentieth

Split Locking Table

James De Wulf

DESCRIPTION

The James de Wulf classic Split Locking dining table features a split radius in the tabletop. The table consists of two pieces: table top and base, which are locked together by gravity alone. Its brutal concrete design centers a room while the split evokes ?ow.

A functional work of art, the table's style and concrete construction will withstand the test of time, maintaining its presence as a modern heirloom.

Colors available in Natural Tone, Light Grey, Dark Grey, Black, and Creamy White.

Suitable for indoor and outdoor use.

Available in 48, 60, and 72 inch diameter; price varies accordingly.
