twentieth

Mangrove Table Wide

Scott Daniel Design

DESCRIPTION

The mangrove series takes direct inspiration from the natural formations of trees and shrubs seen in tropical and sub-tropical estuaries. I have always found beauty in the scraggly roots of these trees, and have immense appreciation for their adaptation to live in harsh conditions and ability to blend and mix environments. For this design, wire mesh is manipulated by hand to replicate the organic formations of the trees and roots.

ADDITIONAL INFORMATION

MATERIALS
Clay, Metal

DIMENSIONS
26”Dia. x 19”H Dimension variations occur naturally, +/- 1”
Custom sizes available.
*Made to order unless otherwise noted.
Variations occur naturally, no two pieces are identical.

FINISHES
Metallic Copper
A selection of available glaze options is shown above. Glazes shown are representative. Color and finish may vary depending on the form and scale of each piece. Specific finishes can be sampled upon request.

PROCESS
Inspired by the concept of Alchemy – combining basic elements to create something of great value - Cmesh was developed through an experimental artistic process. Clay and metal, normally incompatible materials,

were combined in numerous ways and tested extensively until the process was developed and refined.
