

Relic

Ross Gardam

DESCRIPTION

A mirror that offers no reflection, Relic presents a monolithic cone with a mirror-like surface, an optical device designed to reveal the dualities within. Crafted from cast crystal glass this brutalist creation highlights the mesmerizing depth and luminosity of glass.

This unique collaboration merges glass sculpturer Peter Kovacsy's exceptional artistry with Gardam's precise geometric sensibilities and fascination with illuminated surrealism. Relic's minimalistic forms are realized through an intricate and physical process.

Each sculptural glasswork is paired with a raw aluminum base and a meticulously machined conical dimmer—handcrafted, polished, and waxed to perfection.

ADDITIONAL INFORMATION

MATERIAL

Cast crystal glass and hand rubbed and waxed aluminum

DIMENSIONS

L11.8" W5.9" H16.0"

VOLTAGE

Each Relic is hand assembled to your required specifications.

The team will contact you after the purchase to confirm the correct plug required for your region.
