Drift Concrete

Amanda Levette

DESCRIPTION

It's hard to find a more futuristic looking form. Designed to last, the concrete Drift bench is a timeless masterpiece. Whether placed in a bank lobby, public square, botanical greenhouse, English country garden or alpine height this bench provides a sculptural focal point. Made from very fine sand and cement with a crushed limestone fleck the smooth surface is expertly cast by an artisan sculpture studio.

ADDITIONAL INFORMATION

MATERIALS: Cement and crushed white limestone with sealer

COLOR: Natural
