Decanterlight Chandelier

Lee Broom

DESCRIPTION

This Decanterlight Chandelier is a stunning lighting centrepiece featuring two Square, two Bell and one Tulip Decanterlight hung at various lengths to create a luxurious installation of clear, hand cut, crystal shades.

The original Decanterlight collection was released in May 2010 using vintage decanters sourced from flea markets, following the launch of Lee Broom's bar and restaurant design Coquine in London which won Elle Decoration UK's British Design Awards for Best Interior. Each Decanterlight is hand crafted and hand cut lead crystal and each shade shape will be consistent in size, outline and glass cut pattern which is inspired by the vintage collection.
