twentieth

Prometheus Iv

Christopher Boots

DESCRIPTION

Prometheus stole fire from the Gods of Mt Olympus and gave it to humankind. More than the means for survival- light and technology, Prometheus' gift represented creative potential. The spark of creation, previously limited to the Gods, gave mortals the power to dream, to create, to imagine and challenge.

PROMETHEUS IV is an implosion of blazing crystal quartz, venerating its namesake in a ring of flame.

FINISHES CATALOG
