Triple X Chandelier

Stickbulb

DESCRIPTION

The X Collection transcends the line between lighting and furniture. It includes illuminated pieces that can function as tables, chandeliers, or pendant fixtures. Whereas previous Stickbulb lamps have relied on cantilevered bulbs to make different linear silhouettes, X Collection designs create graphic and structurally closed shapes inspired by hexagonal and tetrahedral forms in nature.

The Triple X Chandelier is a configuration of 3 octagonal closed shapes. The wooden component is offered in sustainably sourced maple or walnut, reclaimed heart pine, ebonized oak, or reclaimed water tower redwood and the hardware finish is polished cast brass.
