Meteor

Christopher Boots

DESCRIPTION

Meteors slash through the sky, dazzling all who witness their strangeness.

It is this primal, cosmic energy that is captured in METEOR.

METEOR implements a delicately hand picked selection of gradations of natural smoky quartz and natural clear quartz, conveying the dynamism and movement of cosmic matter plummeting to Earth.

Warm light emanates through the naturally uncut crystals, providing a dramatic glow through the use of dimmable LED technology.

Presented at FOG Design+Art 2018.
