

twentieth

## Luna Pendant

Gabriel Scott

### DESCRIPTION

A lighting system with infinite interpretations, the LUNA is a synergy of color, shape, and refracted light. Inspired by a lunar halo, the modular light fixture grows in every direction as its assembly system stems horizontally or vertically, stacking color upon color of various blownglass shapes. The LUNA series is a glamorous reference to the moon's diffused light and soft glow. Allusive yet glamorous, the LUNA is a new tradition in glass-work and light form. Available in a variety of colors and shapes, LUNA is a highly customizable fixture.
