Peristyle Table Lamp

Scott Daniel Design

DESCRIPTION

The Peristyle Lights by Scott Daniel Design. These lamps were inspired by the urban landscape at night, revealing who's home and who is not, and take their formal cue from the classical Roman garden courtyard or peristylium. Each lamp has a unique pattern of light resulting from the organic buildup of clay and glaze, their individual personalities show in the shadow patterns.

PROCESS
Inspired by the concept of Alchemy – combining basic elements to create something of great value - Cmesh was developed through an experimental artistic process. Clay and metal, normally incompatible materials,

were combined in numerous ways and tested extensively until the process was developed and refined.
