Lucio Chair + Lounge

Established & Sons

DESCRIPTION

The Lucio combines maximum comfort with minimum weight to create a super-supportive lounge chair that's easy to move and offers a distinctive, graphic profile.

The generously sized Lucio high-back chair and Lucio lounge chair offer reclined and relaxed seating positions, with flowing forms cleverly supported by sprung webbing that shapes to the user for extra comfort. The foam-and-fabric body of each chair is connected to its tubular steel frame with a textile or leather cover.

Ideal for breakout spaces, the new Lucio high-back chair has the option of an integrated side table that pivots for ad-hoc working.

"The brief I set myself was to create a steel-framed chair out of tubular sections, which was very efficiently designed and very light. It utilises new technology to support your body," said Sebastian Wrong.

ADDITIONAL INFORMATION

DESCRIPTION
Upholstered chair + lounge chair
