Aura Light

Established & Sons

DESCRIPTION

Harnessing Marcelis' expertise in the utilisation of cast translucent materials, the suspended cylindrical bar of the Aura Light can stand alone or work as part of a grouping. Over a metre in length, the design is made from a bio-epoxy resin, formulated using by-products from the agricultural industry.

A replaceable glass LED tube is housed within the coloured resin case, with the light travelling through the material to create a warm glow. Easy on the eyes, this soft ambient light effect is ideal for a home-working environment as well as relaxed living and office spaces.

"My work is currently exclusively available via galleries and this is the first step towards making some lighting available to a wider audience, but in a conscious and sustainable manner," said Sabine Marcelis.

ADDITIONAL INFORMATION

DESCRIPTION
Suspension Light

DIMENSIONS
S1: L1100mm x D75mm x H87.5mm
Cable Length: L2000mm

MATERIALS
Bio-polyester, powder-coated steel fixing, steel suspension cable

COLORS
Yellow, Rose

DESIGN
Sabine Marcelis
2020
