28 Stem

Bocc

DESCRIPTION

28 SERIES

28 results from an innovative fabrication process that manipulates both the temperature and the direction of air flow into blown glass. The result is a slightly distorted sphere with an interior landscape of satellite shapes, including an opaque milk glass diffuser that houses either a low-voltage xenon or LED lamp.

STEM

The 28 stem system allows for floor, ceiling or columnar installation. Columnar installation available as a a spring-loaded floor to ceiling application. Floor version can be plugged into a wall outlet for maximum flexibility. All versions include integral dimming system. Available in black or brass finish with a variety of pendant options.

28 STEM FLOOR

The 28 series stem floor system comes in a brass or black finish and three different configurations. The semirigid black fabric cord includes a patented integral 360 degree dimming system housed within a sleek brass cylinder.

28 STEM COLUMN

The 28 series stem column system comes in a brass or black finish, two different configurations and multiple height options. The spring loaded spike system allows for both vertical and angled installation. The semi-rigid black fabric cord includes a patented integral 360 degree dimming system housed within a sleek brass cylinder.

28 STEM SUSPENDED

The 28 series stem suspended system comes in a brass or black finish and a variety of suspension options ranging from vertical ceiling-mounted stems to suspended horizontal stems. This system offers many options in terms of length and number of pendants.
