

DESCRIPTION

73 SERIES

The 73 is formed by blowing liquid glass into a folded and highly heat-resistant ceramic fabric vessel. The resulting shape has a formal and textural expression intuitively associated with fabric, which becomes permanent and rigid as it cools. Each 73 is completely unique in proportion, size, and shape.

RANDOM

The 73 random is suspended using coaxial cable and composed in ambient groupings.

CATALOG

ADDITIONAL INFORMATION

SIZE

73.1: Single pendant

73.3: Three pendants
