16 Armature

Bocci

DESCRIPTION

16 SERIES

16 is formed by sequentially pouring three separate layers of molten glass – in varying opacities – on a horizontal plane. Each layer responds to the indeterminate shape of the previous pour to create a uniquely layered whole. Two of these pieces are then attached and illuminated with an internal LED lamp. The 16 series is available in 4 colors.

16 Armature

A stainless steel armature system in a black powder coated finish allows pre-composed branches to be easily connected to a series of hubs during installation.
