Poppy Table

James De Wulf

DESCRIPTION

The Poppy Console is a feminine, free form sculpture which pushes the boundaries of the materials. For Series II the gravity joints are less than 3” diameter, matched to a top that is ultra thin.

The console table weighs 200 lbs. The piece as shown, is intended for indoor placement. For outdoor use, the top will be thicker. Please specify while placing an order.

Tables are sealed with a unique finishing wax and will develop a gradual patina adding to the beauty of the material’s character over time.
