

twentieth

Zona Landscape Sofa

DESCRIPTION

ZONA is OKHA's sculptural rethink of modular seating: a softened architecture that invites you to slow down, settle in, and reconnect.

Moving beyond the rigid lines of traditional sectionals, ZONA unfolds like a landscape shaped by movement, rest, and human connection. Its sensual geometry and layered composition draw on the organic modernism of sculptor Henry Moore, offering not just a seat but a space to inhabit.

OKHA MANIFESTO
