twentieth

Noon Armchair

Ross Gardam

DESCRIPTION

The Noon Lounge is a modular collection of upholstered products, which softly arc at the edges. Noon's arm sits elegantly in place, allowing the cushion to flow over the arc, imbuing the lounging experience with an extra level of comfort and softness.

The Noon Collection is a notable expression of lightness and balance, realized through an array of rich, cohesive material combinations. Noon features a mirror, tables and upholstered lounges, each product in the collection has been designed to provoke intrigue, while subtly exploring the passing of time.
