Bell Sconce 01

Roll & Hill

DESCRIPTION

The Bell collection is part of a series of pieces designed by Post Company for Inness, a Hudson Valley country resort by tastemaker Taavo Somer that takes all of its cues from the surrounding landscape.

This collection is an ode to the Bell Jar Lantern, dating back to 18th century French and British candlelit fixtures. Bell adorns space with warmth and intimacy through a quiet presence and soft diminutive light sources reflected by streamlined geometries and raw materials.
