**\*IMPORTANT: Please provide email confirmation that your order and its related components have been received in their entirety and in good condition. Failure to do so within 7 days of delivery will waive all product warranties.**

Provided Supplies:

- Kelly xl Fixture
- Stem Assembly (stem + threaded rod assembly)
- Sleeve
- Canopy Assembly
- Universal T-Bar
- LED Driver
- Spare LED chip

Required Tools:

- Screwdriver
- 4x 2-pole Wiring Terminals, screw or screwless,
12-18AWG (1.0-2.5mm2), rated for 600V, 15A - EX: WAGO 222-412-
Requires LED driver; Input: Local Line Voltage,
Output 12Vdc SELV, 5A, Max 60 Watt, Class 2 LED Driver.

## CAUTION:
## Blocking should be capable of holding 250 lbs

**STEP 1** Thread rods in to Kelly fixture while passing the wires through one of the threaded rods.

Pass the stem, sleeve, canopy and T-bar over the threaded rods as shown below.

Thread two nuts over each of the threaded rod and lock them against each other.

**STEP 4**

Wire in the LED driver to power supply by using the terminals.
Fix driver to junction box or remote location.

**STEP 5**

Lift the complete Kelly xl to the ceiling and screw the T-bar
in to blocking. Once secured to the ceiling,finish wiring
the LED driver to the fixture by using the terminals.
On Gabriel-Scott fixtures the black wire(+) is positive and
the white wire (-) is neutral.

**STEP 6**

Finally, raise the canopy to ceiling, and secure it in place by raising both sleeves and tightening the set-screws.
