

PRODUCT UPDATE - ABACUS 1800

AUGUST 2022

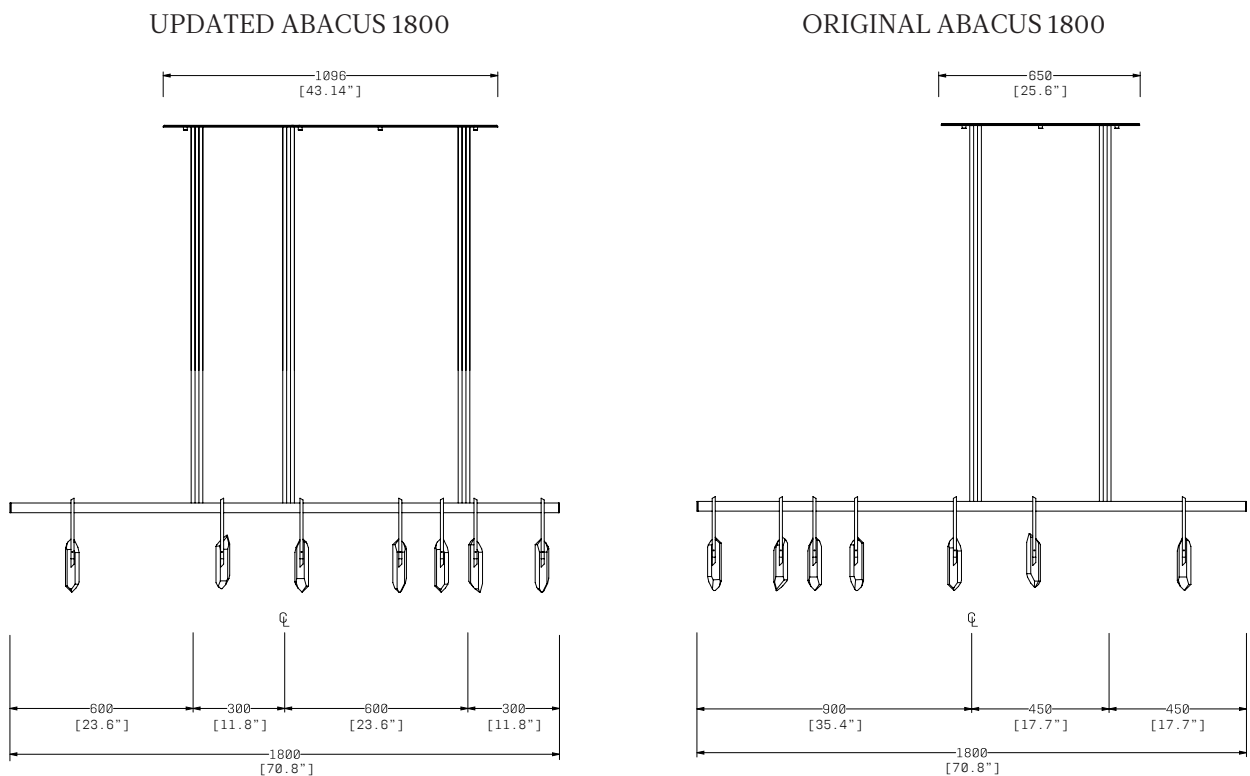

The ABACUS 1800 has had a recent change, with an additional pair of rods to better support the frame around one of the most notable features, the cantilever.

Despite a change of location of the rods, the position of the central pair remains the same, so access to power will remain central to the luminaire. An additional canopy has also been added to the range, specific for the new ABACUS 1800, to allow for the new rod placement.

The ABA.LFL.1800 Flush canopy dimensions are 1096mm [43.1"] x 70mm [2.76"] x 3mm [0.1"].

The ABA.LSL.1800 Surface canopy dimensions are 1096mm [43.1"] x 70mm [2.76"] x 45mm [1.8"]

The illustration below shows the original ABACUS 1800 compared to the updated version.

Please contact your sales representative for more information regarding the ABACUS range.
