

# twentieth

## EVOLUTION STOOL, THOMAS NEWMAN STUDIO

The name "evolution" suggests an elemental, primitive concept – a simple beginning for more complex contemporary ideas that evolve from it. The two hand carved legs are identical, held together with a simple notched joint. Their sculptural, organic shape could be a fin, or a webbed foot of some prehistoric creature.

**MATERIALS**  
Sapele Wood  
Muslin-Wrapped Cushion

**LEAD TIME**  
7-8 weeks

**DIMENSIONS**  
19"W x 12"D x 17"H original
