**ADJUSTABLE LENGTH**

**NON-ADJUSTABLE LENGTH**

All dimensions are in millimeters (mm) unless otherwise specified.

**Best practices for wiring multiple single pendant fixtures with remote mounted power supplies:**

- Multiple single pendant fixtures should be wired in parallel. DO NOT wire in series.
- Bocci recommends a home run line for each fixture location to avoid significant voltage drop.
- Calculations for distance to the power supply, or required wire guage in order to avoid voltage drop, are the responsibility of the installing party.

**NON-ADJUSTABLE LENGTH**
