Editions Paolo Ferrari is a contemporary furniture collection founded in 2016 and handcrafted in Canada. Conceptually driven, each Edition is a collection of unified objects in dialogue with one another. Simplicity and refinement are core tenants, and the duality between sculpture and utility serve as key areas of exploration.

The rich heritage of Japanese garment making at the “Mino”, a traditional raincoat made from layers of straw, served as the inspiration for this collaboration between Studio Paolo Ferrari and New York-based Japanese textile artist Hiroko Takeda. The chair’s sculptural form is punctuated by Takeda’s handwoven textile, with expressive fibers which gather and drape across the outer back.

The intent of this piece is to challenge preconceived notions of utility as being the sole driver of “good design”. Comfort and ergonomics were the key motivators of the chair’s form, with the inner and outer layers creating an armrest, while the application of the upholstery reminds us of the connection between furnishings and craft.

Named after the ancient Roman city where travertine had quarried for centuries. Carved from solid travertine, the Tibur Lounge is an exploration of ancient materiality and expresses permanence and longevity.

We were keen to create a piece of furniture that lasts generations. A future heirloom with a lifespan more akin to the architecture that surrounds us.
